

DARVISH GROUP
INTERNATIONAL HOLDING

ABOUT THE HOLDING

DARVISH GROUP

Darvish Group Holding was founded and started by **AZAR PASSILLO** in 2010. The purpose of this holding was to bring together all of the potential companies and subsidiaries of the company into a single group, so that management, strategy, and purposeful planning would be the most effective. Our goal is to provide a strong and coherent framework for entry into the markets of the region and other target countries.

This holding consists of companies: **AZAR PASSILLO, GLOBAL ACTIVITY LLC, HEXA, MORPH ARCHITECTS, ARTA SAZE ARSHIN, SABIR COMPANY, Moghan Dasht Company, SOLARIM CO, VARNA STONE, PMA CERAMIC, ABHAR WIRE, ASIN ABHAR, SEPINOOD POLYMER**, and we can say that there is all the package needed for construction from A to Z. A true team, a family, starting a movement far greater than any one individual can do on his own. The results speak for themselves, any comparing services can have the will to be great, but it's the will to continue to be great that sets us apart from our competitors. Our aim is to deliver rapid growth and premium services. With that being said, we have composed a rewarding client base implanting new ideas to continue moving towards our goal of expanding both locally and internationally.

OUR HOLDING

Professional Presentation

AZAR PASSILLO INTERNATIONAL CONSTRUCTION COMPANY

3. Esfandaghe 10 MW plant
4. Bahreman 10 MW plant

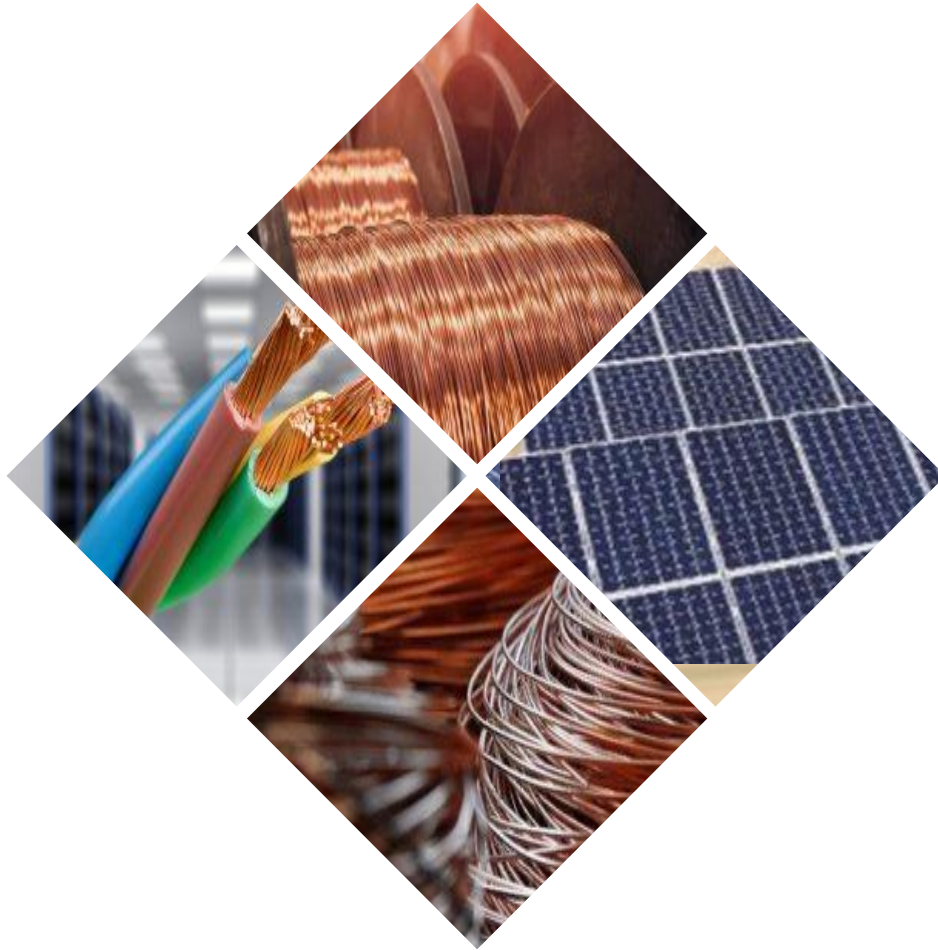

ABHAR WIRE + CABLE CO.

ABOUT

ABHAR WIRE + CABLE is a leading manufacturer of wires and cables in Iran, producing high-quality low and medium voltage cables using advanced technology and a skilled team. Their products serve industrial, construction, oil & gas, and infrastructure projects.

In addition to low and medium voltage cables, the company also manufactures Building Wires and Cables, ABC (Aerial Bundled Cables), and Instrumentation Cables, covering a broad range of applications.

They employ modern technologies such as dry curing, clean rooms with HEPA filters, and X-ray inspection to ensure cable durability and quality. Their diverse product range includes fire-resistant, flame-retardant, armored, low-smoke zero halogen (LSZH), oil-resistant, and waterproof cables, with customization options.

PRODUCTS

- | | |
|-----------------------|-------------------------|
| 1. low voltage cable | 6. high voltage cable |
| 2. vfd cable | 7. Medium voltage cable |
| 3. Marine cable | 8. Multilayer cable |
| 4. Construction cable | 9. Solar power cable |
| 5. Fireproof cable | 10. aerial cable |

ACTIVITIES & SERVICES

Key advantages include manufacturing long-length cables to reduce joints, lowering installation and maintenance costs, and delivering quality tested to international standards. Their products are suitable for various industrial, construction, and infrastructure applications.

- **Production of Low and Medium Voltage Cables**
- **Building Wires and Cables Manufacturing**
- **Aerial Bundled Cables (ABC Cables) Production**
- **Instrumentation Cables Manufacturing**
- **Fire-Resistant and Flame-Retardant Cables**
- **Armored Cables for Mechanical Protection**
- **Low Smoke Zero Halogen (LSZH) Cables**
- **Waterproof and Oil-Resistant Cables**

GHAZVIN GLASS CO

ABOUT

In response to the increasing consumption of sheet glass in Iran, and following thorough studies by the Bank of Industry and Mines, Ghazvin Glass Factory was established in 1965 with a capital cost of more than one billion Rials. The first plant was constructed on the 3rd KM of the Qazvin-Rasht road, on a 260,000 m² plot, with 100,000 m² of building area allocated to production halls, warehouses, administrative offices, engineering services, and repair workshops.

At that time, the factory was the largest sheet glass production facility in the country, equipped with state-of-the-art glass production technology. GGC glass became one of the highest-quality products of its kind in the Middle East. As demand for different types of sheet glass increased, the company expanded its product range by establishing a patterned glass production line, followed by a new float glass production plant and downstream processing facilities. Through these investments, GGC strengthened its competitiveness in international markets while maintaining its commitment to local consumers. These achievements were made possible through the directors' commitment to advanced manufacturing technologies, continuous improvement of company knowledge, and the perseverance of its skilled, young workforce.

The company has continued its development in a structured manner, and GGC's total production facilities now exceed 3,000,000 m² in area.

PRODUCTS

1. Architectural Float Glass
2. Automotive Float Glass
3. Back Painted Float Glass
4. Silkscreened Float Glass
5. Patterned Glass

GHATREH ENERGY AVAND

ABOUT
